12	storytelling, more social media ins & outs, more digital trends	5/20/2021 9:22 AM
13	Those webinars I've attended have been really good. Sadly, I think we all have "Zoom" overload, so sometimes getting on one more call is a burden and I'll opt out.	5/20/2021 9:22 AM
14	I think webinars are very tricky. Between other industry organizations within my agency focus, along with chamber webinars, etc. they get lost in the email shuffle, and even when I register - it is really easy to make other things a priority and "work" through the webinar. It's hard to make true, focused time for a webinar, and I've not been very good at it. When that email notification pops up, its very hard to be disciplined enough to not pay attention to that over a webinar.	5/20/2021 9:19 AM
15	I've enjoyed the webinars but look forward to in-person programming with the occasional webinar moving forward (2-3x per year).	5/19/2021 8:40 AM
